## 1. Capital Adequacy

The Company's capital management policy is to maintain a strong capital base to meet policyholders' obligations and the requirements of the Office of Insurance Commission, to create shareholder value and deliver sustainable returns to shareholders. The Company performed its own risk and solvency assessment (ORSA) incorporating with its business plan, company key risk, and capital management, taking into account strategic risks and external factors which could negatively affect capital adequacy. Capital management is one of the key responsibilities of Asset and Liability Committee (ALCO). The Company activities to effectively monitor and test our capital sufficiency on a regular basis include but not limited to

- Testing capital adequacy in 3 years Business Plan;
- Regularly testing and forward projection of capital adequacy based on going concern basis and economic downturn; and
- The sensitivity test on any significant changes to assess the impact of key risk variables for better informed decisions.

In accordance with and the requirements of the Office of Insurance Commission, all insurers are required to maintain a minimum at least 140% of capital adequacy ratio. It is the Company's policy to hold capital levels in excess of minimum requirement. As at 31 March 2026, the capital adequacy ratio is at 293%.
