### Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of Prudential Life Assurance (Thailand) Public Company Limited

I have reviewed the accompanying statement of financial position of Prudential Life Assurance (Thailand) Public Company Limited as at 31 March 2023, the related statements of comprehensive income, changes in owners' equity and cash flows for the three-month period then ended, as well as the condensed notes to the interim financial statements (collectively called "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 Interim Financial Reporting. My responsibility is to express a conclusion on this interim financial information based on my review.

### Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

### Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 Interim Financial Reporting.

### **Emphasis of Matter**

I draw attention to Note 1.4 to the interim financial statements, which describes the effect of changes in accounting policies relating to the deferred acquisition costs for insurance and investment contracts and the valuation of long-term insurance policy reserves for Zillmer/FPT adjustment under the Net Level Premium Valuation method on the comparative interim financial information. In the fourth quarter of 2022, the Company's has changed such accounting policies in its preparation and presentation of its financial statements for the year 2022. Hence, the comparative interim financial information for the three-month period ended 31 March 2022, which was reviewed by other auditor as mentioned in the "Other Matter" paragraph, has not yet reflected the effect of such changes in accounting policies. The Company therefore restated the statements of comprehensive income, change in owner's equity, and cash flow for the three-month period ended 31 March 2022, presented as comparative information, to reflect the effect of adjustments from such changes in accounting policies. My conclusion is not modified in respect of this matter.

### **Other Matter**

The statement of financial position as at 31 December 2022 of Prudential Life Assurance (Thailand) Public Company Limited, presented as comparative information, was audited by other auditor, who expressed an unqualified opinion in her report dated 16 March 2023.

The statements of comprehensive income, changes in owners' equity and cash flows for the three-month period ended 31 March 2022, of Prudential Life Assurance (Thailand) Public Company Limited (before restatement), presented as comparative information, were also reviewed by the aforementioned auditor who concluded, in her report dated 12 May 2022, that nothing had come to her attention that caused her to believe that the interim financial information was not prepared, in all material respects, in accordance with Thai Accounting Standard 34 Interim Financial Reporting.

Prudential Life Assurance (Thailand) Public Company Limited Notes to interim financial statements For the three-month periods ended 31 March 2023 and 2022

### 1. General information

### 1.1 Corporate information

Prudential Life Assurance (Thailand) Public Company Limited (the "Company") was established as a public company under Thai laws and domiciled in Thailand. The parent company and ultimate parent company are Staple Company Limited, which was incorporated in Thailand, and Prudential plc, which was incorporated in the United Kingdom. As at 31 March 2023 and 31 December 2022, such parent company held 51.21% of the issued and paid-up ordinary shares of the Company. The Company is principally engaged in the provision of life insurance services and there is 1 branch. Its registered address is at No. 944, 10th and 29th - 31st Floors of Mitrtown Office Tower, Rama 4 Road, Wangmai Sub-district, Pathumwan District, Bangkok.

### 1.2 Basis of preparation of interim financial information

This interim financial information is prepared in accordance with Thai Accounting Standard 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial information. However, the Company presented each line item in the statements of financial position, comprehensive income, changes in owners' equity and cash flows in the same format as that used in preparation of its annual financial statements, and in accordance with the format of financial statements specified in the Notification of the Office of Insurance Commission ("OIC") regarding criteria, procedures, terms and conditions for preparation and submission of financial statements of life insurance companies B.E. 2566 dated 8 February 2023.

This interim financial information is intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. This interim financial information should therefore be read in conjunction with the latest annual financial statements.

The interim financial information in Thai language is the official interim statutory financial information of the Company. The interim financial information in English language has been translated from such interim financial information in Thai language.

### 1.3 Significant accounting policies

This interim financial information is prepared using the same significant accounting policies and methods of computation as those were used for preparation of the financial statements for the year ended 31 December 2022.

The revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2023, do not have any significant impact on the Company's financial statements.

### 1.4 Changes in accounting policies

Since 1 January 2022, the Company has changed accounting policy relating to the deferred acquisition costs for insurance and investment contracts where the costs of acquiring new insurance contracts, including commissions and distribution costs, underwriting and other policy issue expenses, which vary with and are related to the production of new business, are deferred as assets and are subsequently amortised on a straight line basis considering the profit emergence period of the underlying group of contracts. In the past, acquisition costs were either recognised as expense when incurred or implicitly deferred within long-term insurance policy reserves. The Company has also changed the accounting policy relating to the valuation of long-term insurance policy reserves for Zillmer/FPT adjustment under the Net Level Premium Valuation method. The Company's management considered that such changes provide information that is more relevant and no less reliable to the decision-making needs of financial statement users.

The effects of the changes in accounting policies to the beginning balances as at 1 January 2022 of line items in the statement of changes in owners' equity were summarised as follows:
